

EU Type Examination Certificate

Date: 2018/11/23

n. **775184703/OE**

Validity:
2023/11/22

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: **JIANGMEN PENGCHENG HELMETS LIMITED**
(Responsible of the PPE) Ind. Park East, – GONGHE TOWN HESHAN JIANGMEN - CHINA

Type of PPE: **Motorcyclist's protective garments – jacket**

Category of PPE: **II** : "medium" risks.
This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.

Model: **"BOND MAN JACKET"**
(MJ088LS2) – 2 colorways (*)

Description:

**BLACK
FRONT:**

BACK:

DESCRIPTION of the **col. BLACK variant**:

external side: black fabric declared 100% PES (1040019013); black fabric declared 100% PES (1050219001); black perforated fabric (1100000002); black fabric coupled with foam material declared 100% PES (1030100010);

internal side: black fabric (1130000026); black perforated fabric declared 100% PES (1100600006); black fabric declared 100% PA (1150129001); black stretch fabric (1030600001); black fabric declared 100% PES (1140302011); black perforated fabric declared 100% PES (1101000004); plaid fabric declared 100% Cotton (11502000005); black fabric marked "LS2" color red (2410202038); black stretch fabric marked "LS2" color red (2410102074);

mid-layer: grey membrane (1120103001);

removable lining (fixed to the jacket by means of a metal zipper): black fabric coupled with white cotton wool and black fabric coupled with grey foam material in the internal side and black fabric coupled with grey foam material in the external side;

main fastening system: by means of a central metallic zipper and a metal buckle in contact with the user;

sleeve and wrist closure: by means of a metallic button;

external pockets: black fabric (11300000027) with zip closure;

internal pockets: black laminated fabric (2420101001) with Velcro closure;

protectors pocket: for shoulder and elbow protectors: black perforated fabric declared 100% PES (1100600006) with Velcro closure; for back protector: plaid fabric declared 100% Cotton (11502000005) with zip closure;

vents: black perforated fabric (1100000010) with zip closure (back zone) and black perforated fabric (1070229005) with two zippers and two buttons as closure;

CE certified protectors inserted in the jacket:

- shoulder protector: "750.14" by SHANGHAI CHANGCHANG POLYMERS;

- elbow protector: "750.13" by SHANGHAI CHANGCHANG POLYMERS;

- back protector (optional): "SC-1/13" and "SC-1/15 XL" by SAS TEC.

(*) = In addition to the base model, the jacket is available in the **col. SMOKE variant**, which differs from the BASE MODEL in the following features:

external side:

- smoke fabric declared 100% PES (1040019013);

- smoke fabric declared 100% PES (1050219001).

The manufacturing of the color variants listed in the technical documentation and shown at page 3, is covered by this Certificate.

Technical Standard: **EN ISO 13688:2013** Protective clothing – general requirements
FprEN 17092-3:2018 Medium-duty protective garments - Requirements
(version 2018/05)

EU Type Examination Certificate

Date: 2018/11/23

n. **775184703/OE**

Validity:
2023/11/22

Intended use:	Motorcycling: preventive use – <u>correct fitting and positioning of the inner protections are essential</u> – the protective functions are guaranteed only by the jackets + protectors correctly inserted.
Size range:	Men's commercial sizes: from XS to 5XL (full information with the size chart in the User Manual)
Technical File:	DC-9706
Test report:	RCT n° 3728044.01/E
Protective functions:	The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities: CE-Certified incorporated impact protectors provide strengthened protection.
Typical test results obtained: (see also Test Report)	<p>This PPE item has reached the following performance: Class AA (*) = <u>Medium-duty protective garments</u>: the second highest level of protection, against the risks of the greatest diversity of riding activities. These garments are expected to have lower ergonomic and weight penalties than AAA garments, which some riders will not find acceptable for their specific riding activities. Protective function is linked to the correct fit of the garment - <u>also the inner impact protectors must be kept in their place: this falls within the responsibility of the user.</u></p> <p>(*) = The applied Technical Draft document provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level); - class B for garments not including protectors / shells = just abrasion protection; - class C for Impact protector ensemble garments.</p>
Marking:	<p>printed on a label, including the following information:</p> <ul style="list-style-type: none"> - CE Marking; - Brand (= LS2) and legal Name of the Manufacturer; - designation (commercial name - unique, unambiguous) of the P.P.E; - pictogram indicating intended use (motorcycling) + nr/year of the Technical Draft of reference + indication of the performance reached at laboratory test (Class AA); - pictogram about ergonomic measures (commercial sizes on a second label); - pictogram inviting the user to read the User Manual; - on different labels other mandatory and optional information such as: international care label symbols and materials content; warnings; lot nr, etc.
