(\*) The jacket is available also in the **BROWN** colour variant.  
See pictures on page 3.

# EU Type Examination Certificate

Date: 2021/07/01

n. **775212601/OE**

Validity:  
2026/06/30

Technical File: **DC-13707/E**

Test report: **RCT n° 4012406.01/E**

Functions and performance levels: The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

**Class A (\*)**: Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(\*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

printed on different labels, including the following information:

- **CE Marking;**

- Name/trademark of the Manufacturer;
- item designation (commercial name – unique/ unambiguous);
- pictogram indicating intended use (motorcycling) + nr/year of the Technical Standard of reference + indication of the class of protection achieved;
- pictogram "i in the booklet" inviting the final user to read the User Manual;
- on other different labels: "Made in...", composition materials, size label, care and washing instructions etc.
