Technical File: **DC-18403**

Test report: **RCT n° 4308082.01/E**

EU Type Examination Certificate

Date: 2024/05/13

n. **775242002/OE**

Validity: 2029/05/12

Functions and
performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class A(*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

Printed on stitched labels and displaying the following information:

- **CE Marking**;
- brand and name of the Manufacturer;
- item designation;
- pictogram indicating intended use (motorcycling) + nr/year of the Technical Standard of reference + indication of the class of protection achieved;
- pictogram inviting to read the User Manual;
- on other different labels: "Made in...", material composition, size label, care and washing instructions etc.
