Technical Standard:	<b>EN ISO 13688:2013</b>	Protective clothing – general requirements
	<b>FprEN 17092-3:2019</b> (version 2019/03)	Protective garments for motorcycle riders – Part 3: Medium-duty protective garments – Requirements
Intended use:	Motorcycling: preventive use – <u>correct fitting and positioning of the inner protections are essential</u> - the protective functions are guaranteed only by the jackets + protectors correctly inserted.	
Size range:	Men's commercial sizes: from S to 5XL (full information with the size chart in the User Manual).	
Technical File:	<b>DC-11198</b>	
Test report:	<b>RCT n° 3822506.01/E</b>	
Protective functions:	The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities: CE-Certified incorporated impact protectors provide strengthened protection.	
Typical test results obtained:	This PPE item has reached the following performance: <b>Class AA (*) = Medium-duty protective garments:</b> the second highest level of protection, against the risks of the greatest diversity of riding activities. These garments are expected to have lower ergonomic and weight penalties than AAA garments, which some riders will not find acceptable for their specific riding activities. Protective function is linked to the correct fit of the garment - also the inner impact protectors must be kept in their place: this falls within the responsibility of the user.  <b>(*)</b> = The applied Technical Draft document provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level); - class B for garments not including protectors / shells = just abrasion protection; - class C for Impact protector ensemble garments.	
(see also Test Report)		

Marking:	printed on a label, including the following information: - <b>CE Marking;</b> - Brand (= LS2) and legal Name of the Manufacturer; - designation (commercial name - unique, unambiguous) of the P.P.E; - pictogram indicating intended use (motorcycling) + nr/year of the Technical Draft of reference + indication of the performance reached at laboratory test (Class AA); - pictogram inviting the user to read the User Manual.
