

# EU Type Examination Certificate

Date: 2018/06/12

n. **775182403/OE**

Validity:  
2023/06/11

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	<b>JIANGMEN PENGCHENG HELMETS LIMITED</b> Ind. Park East, – GONGHE TOWN HESHAN JIANGMEN - CHINA	
Type of PPE:	<b>Motorcyclist's protective garments – trousers.</b>	
Category of PPE:	<b>II</b> : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.	
Model	<b>"CHART EVO MAN PANT"</b> (WINTER MAN Pant) col. BLACK	
Description:	<p><u>external side:</u></p> <ul style="list-style-type: none"> <li>- black fabric (1050219001);</li> <li>- black fabric (1040019004) used in the front knee area;</li> <li>- black fabric (1010527002) used in the rear knee area;</li> <li>- black fabric (1090100030) used in the seat area;</li> </ul> <p><u>internal side:</u></p> <ul style="list-style-type: none"> <li>- black perforated fabric (1100600006);</li> <li>- black perforated fabric (1150129001) used in both ankle and waist area;</li> </ul> <p><u>external and internal side removable lining:</u></p> <ul style="list-style-type: none"> <li>- black fabric internally coupled with a white a wadding-like material (5010308001);</li> <li>- edge made of black fabric;</li> </ul> <p><u>main fastening system:</u> by means of a zipper with a metallic slider, a metallic snap button and a metallic hook.</p> <p>In the inner area there are two metallic rivets in contact with the user;</p> <p><u>leg and ankle closure:</u> by means of a zipper and a hook &amp; loop fastener;</p> <p><u>external pockets:</u> two pockets with a zipper as fastening system;</p> <p><u>protectors pocket:</u> black perforated fabric (1100600006) with a hook and loop fastener for the inclusion of both waist and knee protectors;</p> <p><u>protectors inserted in the trousers:</u></p> <ul style="list-style-type: none"> <li>- KNEE protector: YF PROTECTOR - art. "YF603";</li> <li>- HIP protector YF PROTECTOR - art. "YF631"</li> </ul>	
<p>FRONT:</p>  <p>BACK:</p> 		
Technical Standard:	<b>EN ISO 13688:2013</b> <b>prEN 17092-3</b> (version 2017/11)	Protective clothing – general requirements Medium -duty protective garments - Requirements
Intended use:	Motorcycling; preventive use – <u>correct fitting and positioning of the inner protections are essential</u> - the protective functions are guaranteed only by the trousers + protectors correctly inserted.	
Size range:	COMMERCIAL SIZES (Manufacturer's size system): from XS (MEN = EU 46) to 5XL (MEN = EU 62); full information with the size chart in the User Manual.	

# EU Type Examination Certificate

Date: 2018/06/12

n. **775182403/OE**

Validity:  
2023/06/11

Technical File: **DC-9232**

Test report: **RCT n° 3720092/E**

Protective functions: The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities: CE-Certified incorporated impact protectors provide strengthened protection.

Typical test results obtained:  
(see also Test Report)

This PPE item has reached the following performance:  
**Class AA (\*)** = Medium-duty protective garments: the second highest level of protection, against the risks of the greatest diversity of riding activities. These garments are expected to have lower ergonomic and weight penalties than AAA garments, which some riders will not find acceptable for their specific riding activities.  
Protective function is linked to the correct fit of the garment - also the inner impact protectors must be kept in their place: this falls within the responsibility of the user.

(\*) = The applied Technical Draft document provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level);  
- class B for garments not including protectors / shells = just abrasion protection;  
- class C for Impact protector ensemble garments.

Marking: printed on a label , including the following information:

- **CE Marking**;
- Brand (= LS2) and legal Name of the Manufacturer;
- designation (commercial name - unique, unambiguous) of the P.P.E;
- pictogram indicating intended use (motorcycling) as required by the Technical Draft + indication of the performance reached at laboratory test (Class AA);
- pictogram about ergonomic measures (commercial sizes on a second label);
- pictogram inviting the user to read the User Manual;
- on different labels other mandatory and optional infos such as: international care label symbols and materials content; warnings; lot nr. etc.
