Intended use: Motorcycling: preventive use – correct fitting and positioning of the inner protections are essential.

Size range: MEN's sizes: from XS to 5XL

Technical File: **DC-19880**

Test report: **RCT n° 4405048.01/E**

EU Type Examination Certificate

Date: 2025/04/14

n. **775251601/OE**

Validity: 2030/04/13

Functions and performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class A(*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

Printed on stitched labels and displaying the following information:

LS2
COMMUTER MAN PANT

JIANGMEN PENGCHENG HELMETS CO., LTD

M

HAND WASH 30°C(85°F)

- **CE Marking**;
