Size range:	Men's commercial sizes: from S to 5XL

EU Type Examination Certificate

Date: 2020/10/09

n. **775204105/OE**

Validity:
2025/10/08

Technical File: **DC-12458/E**

Test report: **RCT n° 3912703/E + 3911301/E**

Functions and performance levels: The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class A (*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking: printed on stitched labels including, in combination, the following information required by the Norm:

- **CE Marking**;
- brand and name of the Manufacturer;
- item designation (commercial name – unique/ unambiguous);
- pictogram indicating intended use (motorcycling) + nr/year of the reference Standard + indication of the class of protection achieved;
- pictogram "i in the booklet" inviting the final user to read the User Manual;
- on other different labels: "Made in...", composition materials, size label, care and washing instructions etc.
